## Senior Timetable IT Manager

RailNetEurope (RNE) is an association of European Infrastructure Managers (IMs) and Allocation Bodies (AB) with the common goal of facilitating international traffic on the European rail infrastructure and increasing the efficiency of the IM's/AB's processes. A key element for facilitating access to the European rail network is a harmonised timetabling process for international train path requests. Today RNE counts 34 Full Members from 25 different countries and 9 Associate Members (the Rail Freight Corridors). It is RNE's role to continuously improve and further develop this process.

Along with the ongoing work on implementing measures for a better harmonisation of the international timetabling process RNE (in cooperation with FTE and the support of ERFA) has started the project 'Redesign of the international timetabling process' (TTR). The objectives of the project are:

- clear market orientation
- greater reliability
- improved commitment to the international timetabling process by all parties involved
- greater efficiency in terms of capacities and resources in order to avoid duplication of planning and/or work
- larger rail market share thanks to a better use of existing track capacity

RailNetEurope therefore is hiring a Senior Timetable IT Manager who shall manage the Timetable IT activities and help developing an IT infrastructure that is able to accommodate a Europe-wide harmonised timetabling process.

### Main tasks

- Responsible for definition of the future TTR (Redesign of the International Timetabling Process) IT landscape
- Responsible for the definition of new elements as required in the TTR IT landscape
- Leading the TTR IT Working Group and task forces
- Management of the TT IT Team
- Steering the PCS activities and coordination of demand management regarding PCS and related systems
- Contact to members and customers concerning relevant interfaces
- Coordinating all RNE TT IT activities
- Ensuring the active connection between IT and timetabling-related processes
- Contributing to financing, funding, tenders, other administrative issues
- Reporting to the TTR Manager, RNE CIO, and Secretary General.

## Qualifications

- Extensive project management experience
- Good knowledge of the European timetabling process
- Experience in leading development teams
- Excellent communication and support skills with the ability to work well in a team environment
- Knowledge of IT support processes and procedures
- Ability to work in an international context
- Willingness to occasional international business trips
- Well-organised, precise, ability to work in a fast pace change environment
- Able to show own initiative and perseverance
- Used to working under time pressure
- Very good English language skills at support level

Interested candidates are kindly asked to send their application (including motivational letter, CV, earliest possible starting date and annual salary expectations (gross)) to the RNE Chief Information Officer Harald Reisinger ([harald.reisinger@rne.eu](mailto:harald.reisinger@rne.eu)). Candidates should ideally be available from October 2017 (earlier start is possible). In case of questions please contact Harald Reisinger (+43 1 907 62 72 23).

We are looking forward to receiving your application!
