What is the one thing you most want to leave this webinar knowing?

How will support for Railway Undertakings seeking to interface with RNE's CI work in practice?

Regulations

I want to know how to order paths and what will be the process

Technical details of the interface

Better understanding of the process

Overview DCM

An overall view of the digital system planned in relation to the regulations.

What are we talking about?

What is the one thing you most want to leave this webinar knowing?

Interface CPT <->
Infrastructure

How to apply. Which
system are we using.

Better understanding

How to implément
interfaces to CPT

How would the new rules
affect my operations?

Cap Mgmt effects on
RNE Tools

Usage and future predictably
for the market in the future.
Exchange within IMs/applicants
over the whole Cap. process.
(Cap Strategy, CMO, CSP, TCR)

How the IT-system
landscape of RNE could be
connected to systems of
RUs?

What is the one thing you most want to leave this webinar knowing?

The effects for our company in different countries and ideas on how to go forward with the options

Beter understanding of the process and implementation

how to transition from the strategic planning stage, through the construction of the timetable, to traffic management under the new regulation

Impact on train scheduling data provided by IM

New informations and better understanding

Better understanding

Process with CPT

I would like to familiarize myself with the CPT.

What is the one thing you most want to leave this webinar knowing?

CNA in practice

Feedback of thr RUs

How are TCR
harmonized within
different Railway
Infrastructures?

How to order an
international path with
those tools

What will be the next
steps after this webinar?

Which tools to use when

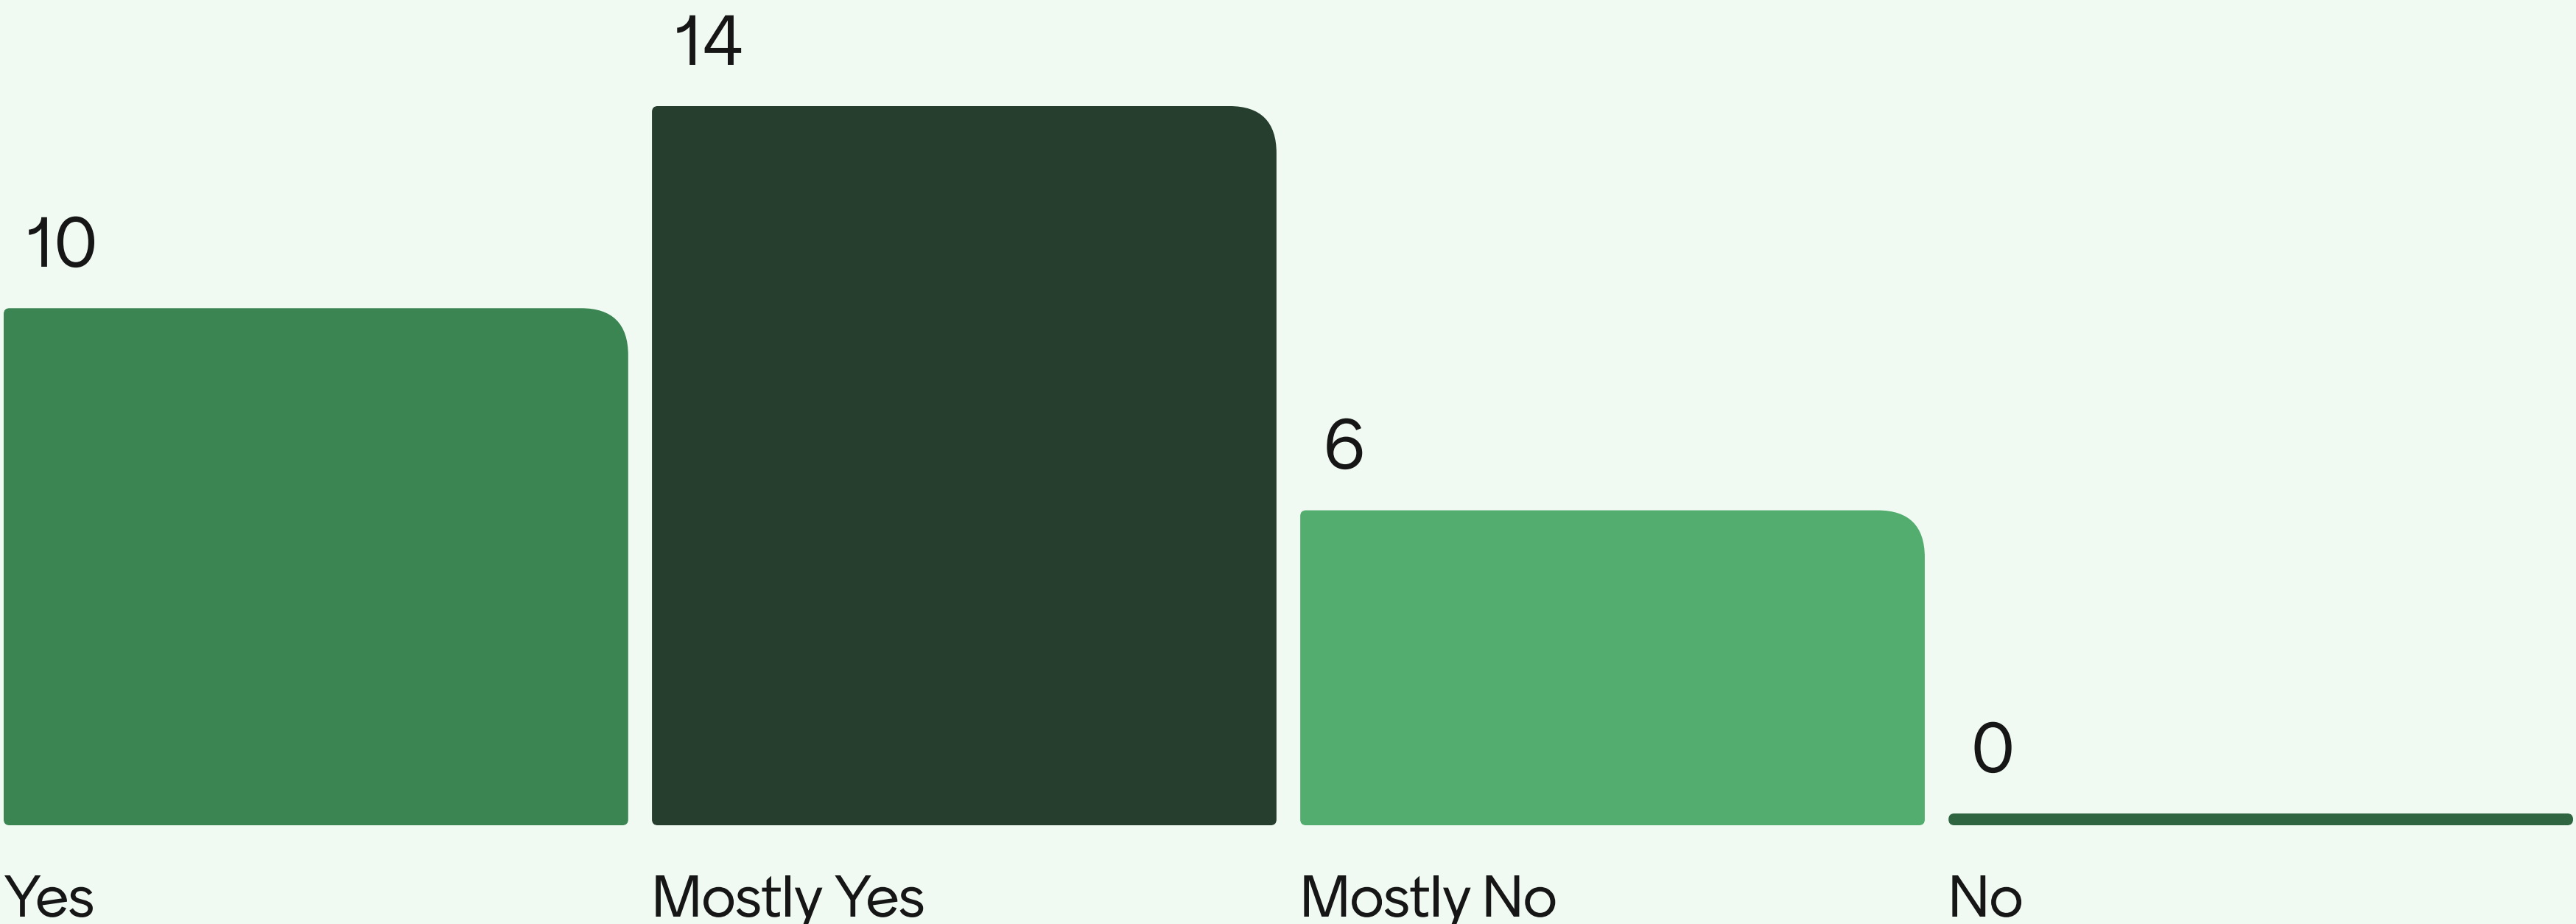

Understand CPT

I would like to familiarize
myself with the CPT.

What is the one thing you most want to leave this webinar knowing?
