

Stakeholder involvement in DCM

RailNetEurope

Three groups bring applicants into DCM

Strategic level: Capacity Management High Level Group · IT High Level Group

The ABCR closes the loop: applicant representatives are nominated via the ABCR, and each group reports its developments back to the ABCR.

The three groups compared

Group	Counterpart	Focus	Chairs	Meetings
DCM Stakeholder Group	DCM Technical Board	DCM content, architecture, interfaces and implementation timelines	Mario Toma, Farkas Krasznai, Nicolas Jasinski	About 2–3 per year
CPT User Group	CPT Change Control Board	CPT functions for non-IM users (user interface)	Mario Toma	About 2–3 per year
PCS User Group	PCS Change Control Board	PCS functions for non-IM users (user interface)	Farkas Krasznai	About 2–3 per year

The Stakeholder Group covers DCM as a whole; the two User Groups are product-specific.

DCM Stakeholder Group

Aligns DCM developments between the DCM Technical Board and applicants and future DCM users: content, architecture, interfaces and implementation timelines.

Feedback From applicants and future users to the DCM TB on content, architecture, interfaces and timelines	Information exchange On DCM developments, including help to define and run communication strategies	Reporting A common report on DCM developments to the ABCR
--	---	---

Chairs Mario Toma, Farkas Krasznai, Nicolas Jasinski	Applicant side Software architects, DCM and business area experts	Meets About 2–3 times a year
--	---	--

CPT and PCS User Groups

Each aligns the tool functions that non-IM users work with between its **Change Control Board** and **applicants and future users**.

Validate

Requirements and needs in change requests for applicant functions

Feedback

On developments of functions relevant for non-IM users

Inform

Exchange on developments and help shape their communication

Test

Support testing of new applicant functions and give feedback on readiness

Report

A common report on function developments to the ABCR

CPT User Group

Counterpart: CPT Change Control Board · Chair: Mario Toma

PCS User Group

Counterpart: PCS Change Control Board · Chair: Farkas Krasznai

Membership and nomination

Infrastructure Managers

Who: the members of the counterpart body, i.e. the DCM Technical Board, the CPT CCB or the PCS CCB

Nominated by: the RNE General Assembly representatives

All full RNE members are asked to take part

Applicants and future users

Who: software architects and DCM experts (DCM SHG); business area experts and expert tool users (CPT and PCS UGs)

Nominated: via the ABCR

The call for nominations stays open
