

3.2.1 Pilot: Capacity Needs Announcements (CNA) for TT2029

- Enables testing of the new **Capacity Planning Tool (CPT)**
- Provides crucial **preparation time** before the CM Regulation and the European Framework for Capacity Management become mandatory
- Gives opportunity to **familiarize with the expected processes and IT systems**
- Continuation of previous testing activities
- Increases **readiness for TT2031!**

→ ***Bridging the gap until EU Regulation requirements become mandatory***

CPT tool testing

Focus

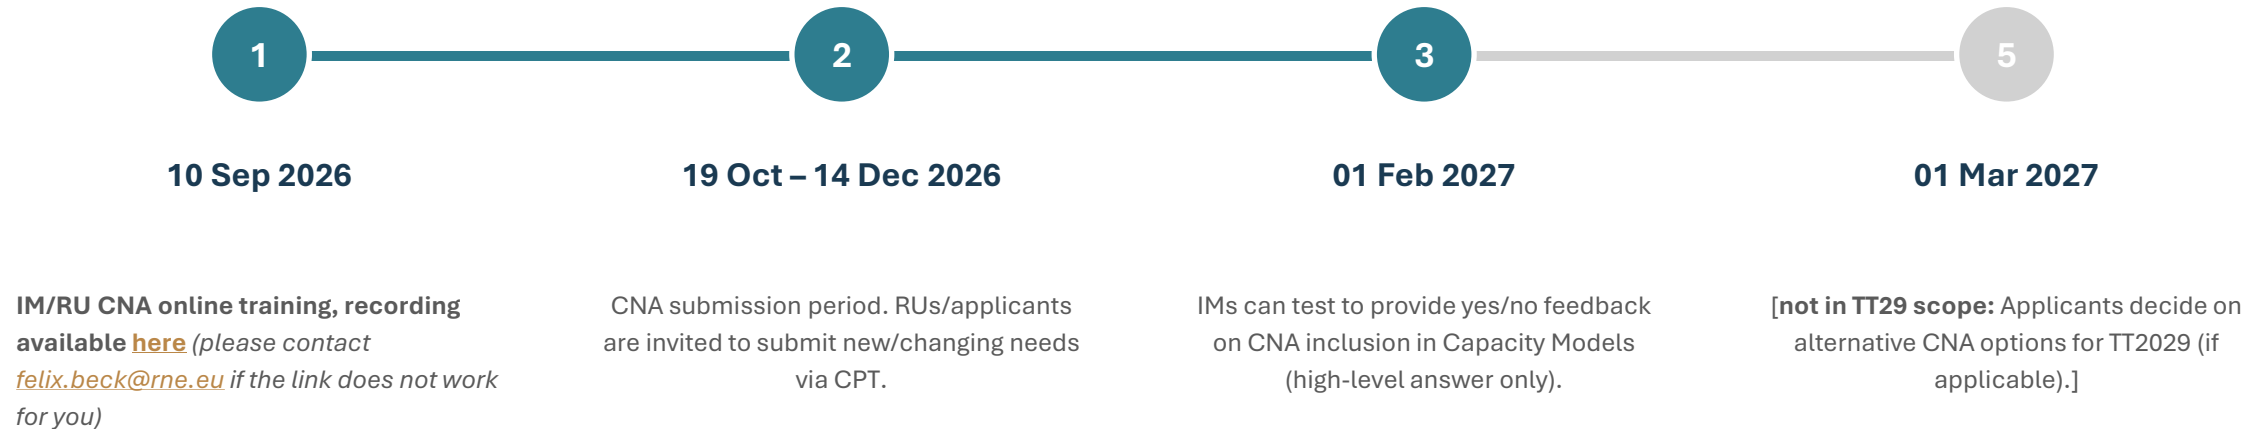

Early familiarization with the tool and its functions

Benefit

No mandatory process yet, Some process adjustments in EFCM might happen

Risk

3.2.1 Pilot: Capacity Needs Announcements (CNA) for TT2029

More info, detailed pilot description and geographical scope available on our website!
