Disclaimer

- » The KPIs reflect the performance of each individual RFC, therefore, when comparing the figures of various RFCs, the specificities of each one have to be considered. Each RFC may apply any additional KPIs, which are published in their annual reports on their websites and/or in the [Customer Information Platform](#) (CIP), where applicable.
- » Please refer to the annual reports of individual RFCs for comprehensive information concerning the figures and their analysis. In addition, you can find the description of each commonly applicable KPI in the RNE '[Guidelines for Key Performance Indicators of Rail Freight Corridors](#)'.
- » Figures for the border-crossing Venlo – Kaldenkirchen (which is not along the routes of RFC North Sea-Baltic) were included in the KPI Market Development 'Number of trains per border' for the border pair 'DE-NL' as this is an important border-crossing used for re-routing of trains due to works at border-crossing Zevenaar – Emmerich.
