

Traffic Management Manager

RailNetEurope (RNE) is an association of European Infrastructure Managers (IMs) and Allocation Bodies (ABs) with the common goal of facilitating international traffic on the European rail infrastructure and increasing the efficiency of the IMs'/ABs' processes. RNE's Joint Office (JO) is located in Vienna with approximately 80 employees from many different European countries.

Detailed information can be found on RNE's website: www.rne.eu

The increasing activities in Traffic- and Train Performance Management (TM & TPM) reflect European Infrastructure Managers' growing interest in the development of these fields. RNE Members are broadening their focus through new activities, including the establishment of the European Traffic Management Network (ETMN), Railway Collaborative Decision Making (RCDM), the implementation of Network ETA, and further RNE TIS Incident Management Tool developments. The goal of these RNE projects is to enhance international cooperation and coordination within the sector by increasing efficiency and competitiveness.

To strengthen the TM & TPM team, RNE is now looking for a Traffic Management Manager.

Your duties / responsibilities

- Lead TM-related projects, especially related to the cooperation between traffic control centres.
- Participate in external working groups focused on TM and related research (e.g. Europe's Rail Joint Undertaking).
- Develop international Traffic Management processes according to the objectives set by the TM High-Level Groups / RNE Managing Board / RNE General Assembly.
- Set up functional specifications for IT developments in line with Traffic Management's international processes and Members' requirements.

- Organise TM meetings and ensure transparent communication and cooperation among the participants.
- Coordinate overlapping tasks with other Working Groups (such as Train Performance Management / TIS / Corridor Managers / Capacity Management).
- Support RNE in the field of TAP/TAF TSI activities concerning TM issues.
- Present relevant topics to external stakeholders and associations (e.g. RUs, Terminals, PRIME, ERJU, CER, etc).
- Report TM-related activities to the Head of TM & TPM, the RNE Managing Board member in charge, and the Secretary General.

Your qualifications & skills

- Specific knowledge and working experience in railway traffic management and railway transport technology
- Good knowledge of railway infrastructure systems
- Knowledge of the international railway business and European railway legislation
- Experience in the elaboration of transport studies and economic evaluations
- Good knowledge of project management, experience in leading larger projects
- Basic knowledge of the IT system structure and software development
- Good knowledge of MS 365
- Managerial and organisational skills
- Very good communication and team spirit
- Ability and willingness to take initiative
- Ability to work under time pressure
