TIMETABLE REDESIGN

1 Introduction

TTR Commercial Conditions project

Geographical Scope (original)

IMs involved in the TTR project worked on the elaboration of harmonised Commercial Conditions Guidelines, aiming to provide a **feasible** and Europe-wide **applicable solution** to support the TTR implementation

Prevent misuse of
infrastructure capacity

Change behavior

Steer, but not punish

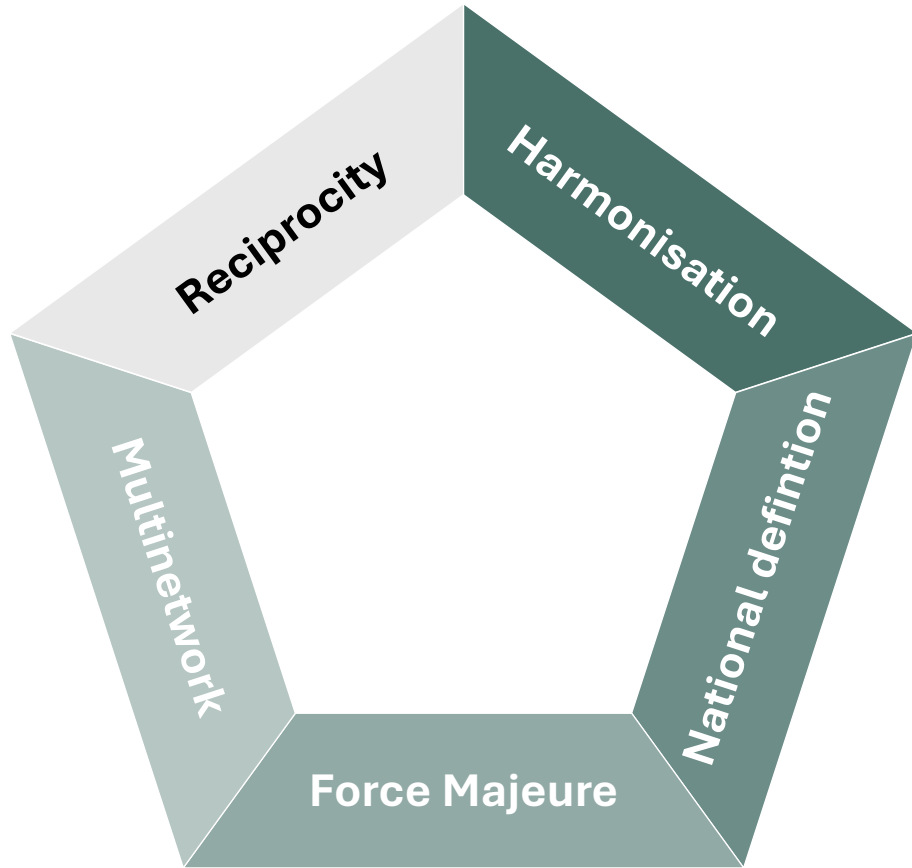

Support new Capacity
Management process

Goals

New regulatory framework for Commercial Conditions

Art. 40 – Compensation/Penalty for changes to capacity rights

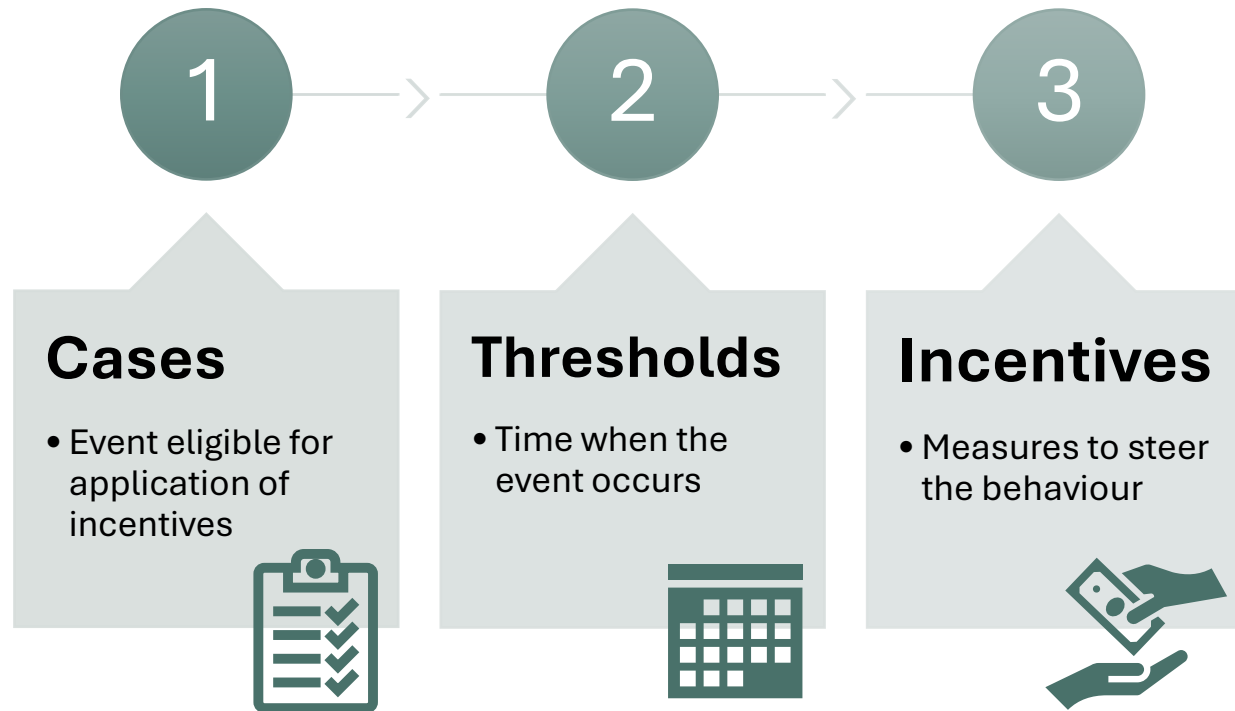

- ENIM to define a **harmonised** framework for Commercial Conditions
- Incentive schemes are part of **European framework for capacity management**
- Incentive system consider **major changes** in capacity rights already allocated (art. 39);
- Incentives defined at **national level** after **Applicants** consultation and **Regulatory Body**'s approval;

TIMETABLE REDESIGN
